

Supreme Back Lawn (Astra 5)

- A highly cost effective solution for a range of lawned areas.
- Contains amenity species specifically bred for the domestic market.
- Highly durable, persistent & extremely hardwearing.

Mixture details

60% DWARF AMENITY RYEGRASS

40% CREEPING RED FESCUE

Sowing rate: 30-40 grams per square metre.

Cutting height: down to 20mm

Supreme Shady Lawn (Astra 6)

- This mixture is specifically formulated for damp, difficult or shaded areas.
- It is luxuriant in its growth and adapts well to low light environments.
- We do however recommend that customers take great care with the frequency of mowing; grass growing in shady conditions will always be subject to more stress.

Mixture details

35% DWARF AMENITY RYEGRASS

35% CREEPING RED FESCUE

15% SMOOTH STALKED MEADOW GRASS

10% WOOD MEADOW GRASS

5% HIGHLAND (Brown Top Bent)

Sowing rate: 35-50 grams per square metre.

Cutting height: down to 15mm

Benefits & Features

Packaging

All seed is packed in tear resistant polypropylene bags, (available in units of 5kgs, 10kgs or 20kgs). Other pack sizes available on application.

Mixture Specifications

All varietal ingredients are fully detailed on each and every bag. If any constituents are unavailable, we reserve the right to use other suitable and equable S.T.R.I. listed varieties. Any such alterations will always be specified on the official seed labels.

Speedy Delivery

Delivery can be actioned within 48 hours of receiving your order using our U.K. wide distribution network. Next day delivery is available upon request, at a marginal extra cost.

Wildflowers

We also have a very comprehensive range of wildflower species to choose from. These can be ordered individually, as mixtures or to complement amenity and meadow grass mixtures. The choice is extremely wide, giving the opportunity for a range of colours and effects in situ. (Please ask for our specific wildflower mix brochure.)

Supreme Amenity Range

Top quality seed mixtures for lawns, sport & recreation

The supreme range of amenity seed mixtures are specifically designed to incorporate some of the best available cultivars, tried and tested in U.K. conditions.

For further details please contact:

Supreme Hardwear Lawn

- A very hard wearing lawn mixture with Dwarf Amenity Ryegrass.
- Fast growing, with an outstanding degree of wear tolerance.
- Ideal for those areas that need extra protection against wear and tear, eminently suitable for family use.
- Produces a superb surface suitable to a range of recreational uses.
